

MOTOR Information Systems is the leader in aftermarket information solutions for vehicles.

MOTOR Information Systems is proud to be the premier supplier of automotive data in the world. Since 1903 MOTOR's mission has been to provide customers with accurate, thorough and timely information to help run their businesses more efficiently, effectively and profitably.

- The channel partner that wishes to add value to their product offering by delivering parts, labor or repair information to their customers.
- The business owner who needs parts and labor data for accurate, timely repair estimating to operate their business.
- The technician who needs the most current automotive reference materials to diagnose and repair any vehicle that comes into their shop.

What we offer

At MOTOR Information Systems, we provide many millions of unique data points, in virtually any formation required by a customer, completely tailored to their business's need, covering all vehicles class 1 through class 8.

Our vehicle data sourcing and integration solutions are custom-made to reduce channel partner's costs and improve efficiencies. We'll assemble the data and then develop the optimum solutions for their business.

No one has MOTOR'S vast database - all of which is categorized by year, make, model, engine, VIN and AAIA vehicle classification.

MOTOR is headquartered in the automotive capital of the world and employs more than 150 talented staff members. Many are ASE and I-CAR certified - providing customers with thousands of years of collective automotive experience.

MOTOR has been a part of the vehicle aftermarket industry for over 100 years.
