- Assist in rapidly and accurately responding to requests for quotes on large volume orders

FEATURES AND BENEFITS

MOTOR BulkX gives part suppliers the ability to cross-reference lists of parts to the parts they provide to the market.

Cross reference to your brands

- Look for cross references to the brands you supply
- Remove the noise of cross references that do not apply
- Review details of part numbers that do not cross to your brands and discover opportunities to enhance your catalog coverage

Bulk processing

- Load your list, let BulkX do the work
- Respond to quotes faster than ever
- Eliminate data entry errors

Search Depth

- Search cross reference chain until your brands are found

Include manufacturer on input to refine matches

In-app parts list cleansing

- Identify part numbers found in multiple brands
- Easily select correct brand

Work progress saved in application

Flexible integration

- Load new lists
- Retrieve in progress or completed lists
- Export as delimited text file or Excel

Modern cloud app

- Easy-to-use interface
- Access from anywhere, 24/7
